ACTION post - Manual Unit Testing

For these tests we are temporarily modifying our testRunner.js to insert tps_created, tps_posted, tps_expires dates that test the limits of the contract.

PASSED – +180 second for tps_expires, max allowed

```
var tMoment = moment().utc();
var tMomentPlus30 = moment().utc().add(180, 'seconds');
```

```
mainuser@mainuser-IdeaPad-Gaming-3-15ACH6:/opt/lampp/htdocs/nft.scribe_audit$ npm test

> nftscribe.tests@1.0.0 test
> mocha testRunner.js

  nft.scribe - Unit Tests for posts.hpp...
    ✔ activateOracleStatus - orc1.scribe (57ms)
    ✔ activateOracleStatus - orc2.scribe
    ✔ activateOracleStatus - orc3.scribe (62ms)
    ✔ ACTION post by orc1.scribe
    ✔ Fetching posts for latestPostID
    ✔ orc2.scribe - Upvote test
    ✔ TABLE posts, 1 upvotes added?
    ✔ orc3.scribe - Downvote test
    ✔ TABLE posts, 1 downvotes added?
    ✔ DeActivateOracleStatus - orc1.scribe
    ✔ DeActivateOracleStatus - orc2.scribe (98ms)
    ✔ DeActivateOracleStatus - orc3.scribe

  12 passing (8s)
```

```
var tMoment = moment().utc();
var tMomentPlus30 = moment().utc().add(1, 'seconds');
```

```
mainuser@mainuser-IdeaPad-Gaming-3-15ACH6:/opt/lampp/htdocs/nft.scribe_audit$ npm test

  nft.scribe - Unit Tests for posts.hpp...
    ✔ activateOracleStatus - orc1.scribe
    ✔ activateOracleStatus - orc2.scribe
    ✔ activateOracleStatus - orc3.scribe (100ms)
    ✔ ACTION post by orc1.scribe
    ✔ Fetching posts for latestPostID
    ✔ orc2.scribe - Upvote test
    ✔ TABLE posts, 1 upvotes added?
    ✔ orc3.scribe - Downvote test
    ✔ TABLE posts, 1 downvotes added?
    ✔ DeActivateOracleStatus - orc1.scribe (77ms)
    ✔ DeActivateOracleStatus - orc2.scribe
    ✔ DeActivateOracleStatus - orc3.scribe

  12 passing (950ms)
```

Requires you speed up the execution of testing to be fast, but still works when you do.

PASSED – +0 second for tps expires, min test, should fail / delete

```javascript
var tMoment = moment().utc();
var tMomentPlus30 = moment().utc().add(0, 'seconds');
```

```
